TECHNICAL EXPERTISE

Languages	:	COBOL, JCL
Database & Storage	:	DB2 & VSAM
OLTP	:	CICS
Operating System	:	MVS
Other Tools	:	SAR, CA7, FILEAID, SPUFI, ISPW, IDE, GIT, JENKINS
Agile Tools	:	JIRA
Automation tools	:	POSTMAN
Version Controller	:	IDZ

ACHIEVEMENTS

- Received Performer of the Year award in U.S. Bancorp project.
- Client appreciation for conversion of Legacy APS programs to COBOL programs.
- Recognized for Providing on time deliverables.
- Well acquired knowledge in Credit card Payment's area.

PROJECT

1.	Project Name: U.S. BANCORP
Client	US BANCORP
Role	Senior Associate
Organization	Cognizant Technology Solutions, India
Duration	10/2021 – Till date

Team Size	3	
Environment	Software	Languages : COBOL, JCL, SQL, CICS Database : DB2, VSAM Tools : DB2 FILEAID, FILE MANAGER, APS tool, IDE, IDZ, GIT, JENKINS, Jira. O/s : ZOS, Windows
	Hardware	IBM Mainframes

Project Description

U.S. Bancorp is one among the US based banking project. The objective of this project is to upgrade the existing mainframe-based payment processing system to enhance its performance, scalability and security. This involves modernizing the core payment processing functionalities, integrating new payment processing and ensuring compliance with the latest financial regulations.

Contribution

As a team member, was responsible for

- Development of new COBOL/DB2, CICS programs for new functionalities.
- Worked on APS legacy to COBOL conversion tasks for both Online and Batch.
- Migration of components to Integration (INTG) and Acceptance (ACPT) regions.
- Validation of Migrated Components in IT and UAT.
- Creation of STRG and publish for Migration
- Worked with ETM team for Batch abends.

2.	Project Name : Vehicle operation ordering production support	
Client	Nissan North America, USA	
Role	Software Engineer	
Organization	Tech Mahindra, India	
Duration	03/2017 – 10/2021	
Team Size	12	
Environment (with skill versions)	Software	Languages : COBOL, JCL, SQL, CICS Database : DB2, VSAM Tools : SAR, CA7, FILEAID, SPUFI, ISPW O/s : ZOS, Windows
	Hardware	IBM Mainframes

Project Description

Nissan North America is automobiles manufacturing company who manufacture and selling cars in all over America. This project is to provide complete support right from forecasting the orders, produce the cars and to deliver end consumer through dealers.

Contribution

As a team member, was responsible for

- Supporting VOPS ordering application – 24 X 7 using COBOL, CICS, DB2 and JCL.
- Worked on the incidents and debugged the issues on complete ordering area.
- Monitored the batch and adhered to the SLA's for any production issue by giving an interim and permanent solution

- Interacted with users to assist and correct them on the process, if any ABEND happens
- Raised the change request and deployed the tools to improve the service in smart way
- Investigated the repeated incident raised by user and fixed it permanently
- Documented all the issues and created the Known Error Database(KEDB) for future use
- Assisted the entry level trainees and made them comfortable to work
